

# Customer Shopping Behavior Analysis

## A Modern Executive Dashboard Report

### PROJECT OVERVIEW

Comprehensive analysis of 3,900 customer transactions across product categories, identifying spending patterns, customer segments, subscription behavior, and revenue opportunities.

#### Key Metrics

- 3,900 Total Transactions
- 18 Data Columns
- \$59.76 Average Purchase Amount
- 3.75 Average Customer Rating

#### Modern Insights

- Revenue concentration is strongest among Young Adults.
- Male customers generate significantly higher revenue contribution.
- Loyal customers represent the largest customer segment.
- Subscription penetration remains a major growth opportunity.
- Top-rated products: Gloves, Sandals, Boots, Hat, Skirt.

#### Dashboard Design Recommendations (2026 Trend)

- KPI Cards with icons and micro-trend indicators.
- Donut charts for subscription and customer segments.
- Modern horizontal revenue bars with ranking labels.
- Executive summary panel for stakeholders.
- Clean white-space driven layout with business storytelling.

#### Strategic Recommendations

1. Increase subscription adoption through exclusive offers.
2. Launch loyalty campaigns for returning customers.
3. Optimize discount-heavy product categories.
4. Focus marketing on Young Adult customers.
5. Promote top-rated products to improve conversion rates.

#### Business Impact

This modernized report enables leadership teams to make data-driven decisions for customer acquisition, retention, pricing optimization, and revenue growth.
